

Reactivity Reimagined

WELCOME

Reactivity can feel overwhelming, but there's hope!

While your dog's reactive behavior might be challenging now, it's important to remember that they're responding to emotions like fear, anxiety, or frustration. The good news is that we can guide them to healthier, more positive responses.

Instead of reacting out of stress, they can learn new behaviors that feel just as good—whether that means calmly ignoring triggers or even enjoying interactions with other dogs or people.

By creating a calm, supportive environment, your dog will be in a better space to learn and grow. That's exactly why we've developed **Reactivity Reimagined**—a comprehensive program designed to help you and your dog every step of the way.

In this program, you'll gain practical, easy-to-follow strategies to keep your dog focused around distractions, manage unexpected situations, and recover when things don't go as planned. Together, we'll build the skills needed to create calm and confidence, helping your dog thrive!

Licensed Family Dog Mediator and Trainer

Hi, I'm Kim!

As a certified Family Dog Mediator, trainer, and owner of **Building Bonds** in Tucson, Arizona, I specialize in coaching pet parents to create meaningful, lasting connections with their dogs and fostering harmony between both ends of the leash.

With over 12 years of experience working with reactive dogs, I hold the following certifications:

- **KPA CTP:** Karen Pryor Academy Certified Training Partner
- **CBATI:** Certified Behavior Adjustment Training Instructor
- **PCT-A:** Professional Canine Trainer Accredited
- **LFDM:** Licensed Family Dog Mediator
- **FFCP-T:** Fear Free Certified Professional Trainer

I am dedicated to using only humane, effective, and fear-free training methods that are easy to follow and, most importantly, fun for both dogs and their people!

PROGRAM OUTLINE

There are nine core areas that form the basis of our Reactivity Reimagined Program to ensure you tackle reactivity and have a working plan in place for anything that may come up.

In each module, you will grow in your knowledge, build core skills and progress through milestones until you have mastered each area. By the time you complete our program, you will have a full toolbox to help you navigate problem behaviors with ease!
